# THE VIBE: FUN FORMAL

**Fun Formal** is a dress code that strikes a balance between elegance and playfulness. It's dressy and elevated, think cocktail attire or semi-formal, but with a vibrant twist. Guests are encouraged to wear bold colors, playful prints, and stylish accessories, rather than the traditional all-black or subdued tones of black-tie. It's polished without being overly serious, perfect for expressing personality while still honoring the occasion's formality.

*Yes Bianca just made up this term...& yes Chat helped her make a definition of it....but you get the vibe*

# WHAT NOT TO WEAR

**Wearing white!?** Unless your goal is to make the bride cry and steal her thunder, maybe save that dress for another day... respectfully, of course!

In case there is any confusion....**butter yellow** is a no (srry not srry), pale yellow is a no, super light beige or cream dress is a no, if you think “mmmm is this too close to white”...error on the side of it’s a no <3

# WHAT NOT TO WEAR

**Shorts, T-shirts, denim, and athletic sneakers?** Cute... but this is a wedding, not a backyard BBQ!

***Oooooof okay.. sorry we had to be mean there for a second...now let's get to the look book. Starting with the ladies!!***

# *for the ladies*

Ladies...We invited a fabulous group of women to our wedding, and we cannot wait to see all your beautiful faces on the dance floor! This is your moment to break out that bold color or fun print you've been waiting for an excuse to wear. Scroll down for a little outfit inspo—have fun with it!

# *for the guys*

Guys... okay...Your classic white button-up under a jacket? Totally fine, that white gets the green light. But please steer clear of the super light beige we mentioned above. Here are some other great options to consider!
